○ Git Hub Up Upwork 🔗 Portfolio

PROFILE

Front-End Developer with 1+ year of experience building responsive and user-friendly web applications using React.js. Skilled in HTML, CSS, JavaScript, Tailwind CSS, and Git. Strong understanding of component-based architecture, state management, and API integration. Passionate about clean code, performance, and delivering great user experiences. Eager to grow in fast-paced, tech-driven environments.

SKILLS

HTML 5 & Css3
Strong foundation in semantic HTML and modern CSS for building well-structured, responsive, and accessible web layouts.

JavaScript (ES6+)
Proficient in writing clean, efficient JavaScript for dynamic user interfaces, DOM manipulation, and logic handling.

React.js
Experienced in building scalable, component-based single-page applications (SPAs) with React. Familiar with hooks, lifecycle methods, and context API.

Tailwind CSS
Skilled in using utility-first CSS framework to create responsive, modern, and customizable designs efficiently.

Redux Toolkit
Hands-on experience in managing complex state in React apps using Redux Toolkit with slices, async thunks, and selectors.
